ABOUT

Analytical and resourceful problem-solver with disciplined approach and skill in producing clean, robust code. I am a Software Developer / Engineer with strong verbal and written communication skills, self-driven, and can deliver high-quality results in a fast-paced environment.

SKILLS

Languages and Framework	JavaScript, React, Node.js, RESTful APIs, Python, Java, Spring Boot, Apache Kafka, Mockito, Testing NG, Helm
Relational Databases	MySQL, PostgreSQL, MongoDB
Cloud	GCP, Google Firebase, Azure
Version Control	Git, GitHub
Other Skills	Object-Oriented design, algorithm design, Web or mobile application development, unit testing, Unix/Linux environments, data structures, problem solving, complexity analysis, written and verbal communications, teamwork, management, leadership, versatile, enthusiastic, multi-tiered systems

WORK EXPERIENCE

Software Developer | ECI Technology Group Inc.

Sep 2019 – Present | Toronto, Canada (Remote)

- Built distributed storage, index, and query systems that are scalable, fault-tolerant, low cost, and easy to manage/use.
 - Got hands-on experience in professional software engineering practices & best practices for the full software development life cycle, including coding standards, code reviews, source control management, build processes, testing, and operations.
 - Design, develop, modify, debug and/or maintain software code according to functional, non-functional, and technical design specifications.
 - Proficient in using Git for version control, merging and branching.
 - Knowledge of cloud computing platforms like AWS and experience in deploying applications on EC2 instances.
 - Collaborated with cross-functional teams to identify and solve complex software development problems.
 - Implemented security measures like authentication and authorization using Spring Security.
 - Experience in working with multi-threading and concurrency in Java.
 - Worked in an agile environment to deliver high-quality software.
-

EDUCATION

Bachelor's Computer Application | GLS University

June 2015 - June 2018

Relevant Courses:

Software Design (Design Patterns, object-oriented design), Data Structures and Algorithms, E-Commerce Development, OOP, Software Testing, User Interface, Database Management, Software Development Project
